

DC141

Surface mount miniature contact wired - self-adhesive

Self-Adhesive Contact

The DC141 magnetic contact saves installation time through the use of a 3M adhesive tape. The tape which establishes a permanent bond between the contact and the surface, can be repositioned during the first 5 minutes. A low profile and small footprint combine with reliable technology make the DC141 the perfect magnetic contact for those situations where drilling holes are impractical.

Standard Features

- Quick tape mounting; no screw or glues needed
- Urethane/acrylic tape bonding improves with age
- Convenient surface mounting
- Standard 2 m wire length
- Tamper loop provided

DC141

Surface mount miniature contact wired - self-adhesive

Specifications

Operating gap	25 mm (max.)
Connections	4 wires, 2 m
Contact type	NC
Dimensions (W x H x D)	38 x 6 x 9 mm
Colour	White
