

# ZFP Touchscreen Controlled Addressable Fire Panel (Standard Cabinet)

## Part No. **ZFP1/CA and derivatives**

#### **Overview**

A feature-rich touchscreen-controlled addressable fire panel with 1, 2 or 4 C-TEC CAST compatible loop drivers (see Key Features section for a full list of ZFP features).

LPCB certified to EN54 parts 2 & 4. Part 13 pending.

Multiple off-the-shelf variants or build your own panel using our ZFP selection charts.

Rapid loop learn, flexible cause & effects and powerful system diagnostics.

Hi-integrity fault-tolerant RS485 networking option allows up to 128 network nodes (64 main panels and 64 Compact Controllers).

Optional 'A-Bus' expansion PCBs, paging and graphic interface facilities.

Why not build your own ZFP? Simply select the Switch & Indicator Module(s) and A-BUS PCB(s) you need and we'll do the rest - building, testing and shipping the panel to you in no time at all. Contact our Sales Desk for details.

## **Technical Specifications**

Certified to EN54-2 & 4 by the LPCB. EN54-13 certification to follow. Approvals/certifications

Protocol/compatibility C-TEC CAST 230V 50/60Hz Mains supply Mains rated current 1.3A maximum. Internal power supply 27Vdc nominal Total output current limited to 5A @ 230Vac

Quiescent current Varies depending on the panel's configuration - refer to our ZFP loop/battery calculation tool for

details.

Battery charge capacity 7Ah min to 18Ah max.

2 x 12V 18Ah VRLA connected in series. Max battery size and type No. of loop drivers 1, 2 or 4 (dependent on model purchased).

Max. loop output current 450mA. 1KM. Max. loop length Max. addressable devices per loop 255

2 (Max. length per circuit is 500m). No. of conventional sounder circuits

EOL resistor value 6800 5% Tol. 0/25W (blue, grey, red, gold).

Max. sounder output current 2 x 1A

Auxiliary relays 2 x Programmable Relays (programmable from C&Es). 1 x Fault Relay (active when no faults are

present). Volt free single pole changeover. Max. switch current 1A; Max. switch voltage 30Vdc.

Other outputs 24V Aux. Power (19.5V min, 28V max). Protected by a resettable fuse. Max. current 100mA.

 $2\,x$  Programmable Inputs (programmable from C&Es). Connect to OV to trigger, Max. input voltage Auxiliary inputs

27V (non-latching).

Via a galvanically isolated USB socket on the Z41 control module. PC connection

RS232. ESPA compatible. Pager/DECT connection

Graphics interface/diagnostics connection RS485. Drax compatible. C-TEC ENVISION Cloud Enabled.

RS485 hi-integrity multi-path fault tolerant network connection via optional ZHN network card. Max Network connection

128 network nodes (up to 64 main panels & 64 compact controllers).

Indicators Full-colour 480 x 272 pixel touchscreen, all relevant EN54 indicators plus 5 programmable indicators.

Additional indicators dependent on Switch & Indicator module fitted.

Interactive touchscreen with menu sensitive buttons; 1x keyswitch allowing direct access to Access Controls

Level 2. Additional controls dependent on Switch & Indicator module fitted.

Fixed, largest acceptable conductor size 1mm2. Connections

T 01942 322744 E sales@c-tec.co.uk

Expansion connections RS485 peripheral bus connection allows the connection of up to 15 'A-Bus' PCBs (2 control cores plus

screen plus 2 cores for power).

Product dimensions (mm) 450 W x 462 H x 127 D.

Construction & finish Light grey textured mild steel, 1.2mm Zintec. RAL7035 epoxy paint.

IP Rating IP30.
Weight TBC.

Operating conditions/temperature -5°C to +40°C. Max relative humidity: 95%.
