Product Overview

Front View

C313X

Rear View

NOTE: C313N does not have PON_OUT Interface.

Installation

Without 86 embedded box in the wall

Mark two fixation holes through wall-mounting bracket on the wall, the distance between which is 60mm. Make sure the all cables can be passed from the middle of wall-mounting bracket.

Take down the bracket, then using a 6mm hand drill to make the two fixation holes on the wall you marked before.

Once the fixation holes are made, insert the two plastic wall anchors provided.

Use two ST4x20 crosshead screws to fix the wall-mounting bracket on the wall.

With 86 embedded box in the wall

Make sure all cables in the 86 embedded box.

Fix the wall-mounting bracket on the 86 embedded box with two M4x30 crosshead screws.

Device Mounting

After connecting the wires according to the wiring diagram, align the device with the wall-mounting bracket. And push down to fix the device securely.

C313X Quick Guide

Device Wiring
